## Please amend the following claim:

- 13. (TWICE AMENDED) A method for the discriminatory detection of a vaccination with *M. bovis BCG* or an infection by *M. tuberculosis* in a mammal, comprising:
  - (A) preparing a biological sample containing cells;
- (B) incubating the biological sample with at least one product as defined in claim 11; and,
- (C) detecting a cellular reaction indicating prior sensitization of the mammal to said product.

## Please and the following new claims:

- 28. (NEW) The method of claim 13, wherein the biological sample containing cells is a sample of cells of the immune system.
- 29. (NEW) The method of claim 13, wherein the cellular reaction detected is cellular proliferation.
- 30. (NEW) A method for the discriminatory detection of a vaccination with *M. bovis BCG* or an infection by *M. tuberculosis* in a mammal, comprising:
  - (A) preparing a biological sample containing cells,
- (B) incubating the biological sample with at least one product as defined in claim 11, and,
  - (C) detecting synthesis of protein.
